Minna, Microbiology/B.Tech 2015

I am a seasoned Full Stack Web Developer with a passion for crafting seamless and dynamic web experiences. I have delivered customized end-to-end web solutions for diverse clients. Proficient in leveraging useful technologies to create efficient, user-friendly applications. Experienced in managing independent projects, meeting deadlines and exceeding client expectations with tailored, high-quality deliverables. My commitment to excellence extends beyond code. I'm a firm believer in the power of continuous learning, and I'm constantly exploring fresh perspectives to drive innovation.

Work Experience

Freelance

Oct 2021 - Present

Full Stack Developer

I utilized MERN Stack to build blogs, e-commerce websites, social media applications, chat applications e.t.c for a diverse range of clients, integrating relevant APIs and a robust database system that meets their specific business needs and requirements.

I conducted thorough testing, debugging across various aspects of web applications providing my clients a seamless error-free user experience.

I managed multiple client projects simultaneously, effectively prioritizing tasks and deadlines while maintaining a high standard of work quality and adhering to project timelines.

I provided comprehensive technical consultation and guidance to clients, offering insights and recommendations on best practices, emerging technologies and optimal solutions to enhance their digital presence and business operations.

Freelance

February 2021 - Aug 2021

Front-End Developer

I collaborated closely with a design team, translating mock-ups and wireframes into highly intuitive and visually captivating user interfaces that aligned with my client's branding and user experience goals increasing user retention rates.

I successfully integrated and customized third party APIs to extend website functionality of a client venturing into crypto trading, offering users enhanced features and services. This consequently amplified my client's market competitiveness and service offerings.

– Cedar International Secondary School, Abuja - SSCE 2009

National Youth Service Corps(NYSC)

February 2016

Basic Science Teacher, Secondary School, Etoi.

Challenges Encountered

- There was a natural dislike for the subject by the students and as a result of the ineffective way he subject has been taught in the past.

Actions Recommended

- I introduced student friendly examples and pictures to encourage active participation in the subject. Instructional materials were also introduced during teaching to ensure detailed understanding of the subject.

Results Achieved

- There was a great improvement in the level of understanding and interest in the subject as it reflected in their test and exam scores.
